Dear Colleagues,

It is a great pleasure and honour to invite you to the **24<sup>th</sup> Pan-Hellenic Nephrology Congress**, which is being organized by the Greek Society of Nephrology and will take place from the **17<sup>th</sup> to the 20<sup>th</sup> of May** at the Atlantis Aquila hotel in Heraklion, Crete.

Maintaining the hybrid form of the event, we hope to be able to enjoy the live presence of a great number of colleagues and that the internet will be used as a simple “tool” to serve the colleagues that stayed at home for various reasons.

The scientific program includes lectures, round tables, satellite symposia, oral and poster presentations, which cover current scientific subjects and deal with the newest developments within the entire spectrum of Nephrology. We believe that the presentation of these subjects from distinguished Greek and foreign speakers with rich clinical work, scientific research and international recognition as well as from younger colleagues with important clinical experience and various research interests guarantee the high level of the congress. Concluding our congress, we are enthusiastic to host an important educational symposium of the European Vasculitis Society on the 20th of May, aiming to exchange ideas, knowledge and experience with our European colleagues.

The necessary condition for the success of the congress is your active participation, and for that reason, I am calling you to respond to our invitation in order to further improve the ongoing education in Nephrology.

With kind regards

On behalf of the Greek Society of Nephrology council and the members of the Organizing and Scientific Committees,

A handwritten signature in black ink, appearing to read 'K. Stylianou'.

**Konstantinos Stylianou**

Chairman of the Congress
